Hours of Service

The need to comply with Hours of Service regulations are a driver and administrative burden.

Paper based Record of Duty Status leave room for error, while not keeping a fleet up to date with current field operations. Fleets must utilize electronic records to fully understand the current status of drivers, mitigate potential violations, and provide operational tools to manage multiple organizations and drivers.

Features

- Hours of Service tracking for drivers for December 2014 update.
- 395.15 compliant Automatic On-Board Recorder.
- Ready for MAP-21 Mandate specifications.
- Clients are able to choose the HOS rule set they run under including all US Federal, US State, and Canadian rules. Other features include:
    - Oilfield and state provisions
    - HOS exceptions including 16 hour Big Day Declarations and Adverse Conditions.
    - Personal conveyance
    - Team driving
- Alerts and insight into violations, or drivers that have low drive time, adverse weather declarations, Big Day Taken.
- Ability to easily edit a driver's log and get a sign-off from the driver utilizing a easy to use driver log creation tool.
- Ability to record driver meetings or other on-duty times away from a domicile.
- Ability to see all drivers across organizations and resources based on permission structures.
- Filters for log reporting based on history, logs with violations, personal conveyance, and log edits.
- See Hours of Service information in a map view to quickly and accurately dispatch the right drivers.
- Ability to export logs into PDF, Word, CSV, Excel or printable formats.

Benefits

- Fleet managers are able to see the creation of a driver log in near real time based on the driver's last change in duty status. Key features for managers include:
    - Ability to manage unassigned vehicle activity in the case a driver forgets to log in.
    - Drill down reporting making it easier to get quickly down to actionable data.
    - All viewable and editable on a tablet, giving managers access to critical compliance data while in the field.
- Automating paper based manual processes - No paper, no filing, and no document storage.
- Keeping fleet managers, drivers, and dispatchers on the same page, allowing for structured interaction between groups and entities.
- Fleet managers can work on an exception basis, only dealing with issues as they arise.
- Extremely fast HOS audits with minimal DOT intervention or additional scrutiny.
- Reduction in records needed to comply with HOS regulations.
- Better HOS Compliance CSA Scores.

Getting More from Your Technology Investment

The Omnitracs Alliance Program facilitates integration of Omnitracs solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitracs Professional Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitracs Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

About Omnitracs, LLC

Omnitracs is the global pioneer of innovative and comprehensive fleet management solutions transforming the transportation industry through technology and insight. Omnitracs' more than twenty five years of leadership and experience uniquely positions it to serve the industry's needs for seamlessly integrated compliance, safety, productivity, route planning and delivery, analytics, and transportation management system solutions. Omnitracs' more than 1000 employees deliver software-as-a-service based solutions that help more than 40,000 private and for-hire fleet customers manage over 1,500,000 mobile assets in more than 70 countries. Omnitracs' portfolio encompasses Omnitracs Latin America and the solutions formerly known as Roadnet Technologies, XRS Corp, Sylectus, and Omnitracs Analytics. Omnitracs is a member of the Vista Equity Partners group of companies.

Learn how you can use our applications, platforms, and services to reduce costs, increase profitability, and stay competitive. Visit traxxisgps.com and let us show you how you can save time and money.
